

From VET to WOW

Newsletter 1

We are happy to introduce the project named From VET to WOW. The main objectives of this project are to internationally exchange ideas about new models of cooperation between VET and the world of work (WOW), and to show to the participants of the project how to establish a cooperation between VET and WOW. The project is implemented by organizations from several European countries: Poland, Sweden, Netherlands and Spain.

We invite VET teachers and trainers to the cooperation within the project. If you want to improve your knowledge about the world of work and have the opportunity to develop a plan for cooperation between VET and the world of work with us, then join us!

Thanks to the transnational collaboration and the planned discussions between VET teachers /trainers and representatives of enterprises participants will get wider perspective on possible cooperation between vocational schools and companies. Because of this cooperation, better conditions for transition from VET institution into work life will be created.

The partnership objectives are:

1. To know new models of cooperation between VET and the world of work in local context.
2. To develop professional competencies and knowledge of participants in the area of cooperation between VET and the world of work.
3. To improve the enterprise skills of participants.
4. To learn and share new methods for a more efficient transition from VET to WOW.
5. To share good practices in cooperation between VET and WOW.

This project has been funded with support from the European Commission. This document reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

From VET to WOW

Newsletter 1

SMEBOX AB is a project partner from Sweden.

SMEBOX AB is a typical network company – working in different sectors with different partners. The company was started in 1999 based on tools and methods for training and developing SMEs and managers/company owners. The work in Sweden has been on local, regional and national markets and projects but also a number of transnational projects and missions have been performed.

The scope of SMEBOX is “SMEs” and working as a “toolBOX” for them. In SMEBOX the keywords working with SMEs are – Inspiration, Knowledge and Development – and that is actually the scope and core activities. The competence related to this project is the skills in working with SMEs and their owners and Entrepreneurs for +15 years.

SMEBOX is also the base for SME Academy – a European Network based on the knowledge FOR and ABOUT SMEs.
